We recently bought a universal remote control for an extra bedroom and needed to find the remote codes to control our existing Sanyo TV and Toshiba DVD player. We ended up searching multiple websites and still didn't find the code list we needed. So we used multiple sources and gathered up the universal remote control 3 digit codes for most TV,
VCR, Satellite, DVD, DVR and Blu-ray players. Jump to TV remote codes, CD player remote codes, VCR remote codes, WCR rem
equipment. We estimate that we have 90% of all of the 3 digit codes needed to program your universal remote control. We created this code list to be easy to use and simple to find the remote control. We created this code list to be easy to use and simple to find the remote control... Find the right remote code for the
make and model of the TV or Home theater equipment. Point the Dish Network remote control at the TV. Press and hold down the "TV" button until four lights at the top of the remote code for your TV on the remote number keypad. If you're using the TV set in "Aux" mode to view the output from a connected external
device, press the "0" key before entering the code. Example: If the TV remote code is "345," enter "0345" instead. The "TV" light at the top of the remote flashes 3 times. TEST YOUR REMOTE - Press the red "Power" button on the remote control. The TV should
turn off. FINISHED. How to program a remote for Vizio TV: Directions to program your Vizio Universal remote control... Manually turn on your TV (or device) button and hold for 5 seconds until the LED flashes twice. LED will remain lit. Find the programming code for your TV (or device) in the code list
below and enter it using the Number Buttons. The LED flashes once after entering each digit if the code is accepted. Point the VIZIO remote control at the device powers off, setup is complete. If not, repeat steps with a different code. VIZIO: 0050 1000 1222 1322 1189 0218 1169 1168 0081 0112 0143 1011
0219 0220 0221 0222 How to program UNIVERSAL remote for COMCAST: Directions to program your COMCAST Universal remote control... Turn on the TV you are programming. Press and hold the "Setup" button on the remote until the button blinks twice. Type in the 5-digit code using
the number buttons. 10812, 10702, 10060, 10766, 11903, 11060, 10587, 10814, 10650, 10178, 10030, 10386, 11993, 11755 If the code is incorrect, you will get one long blink. Use the remote to operate your TV (use Power, VOL) If these steps don't work, look for another code from the large list above and
repeat. list here. The following list is the 3 digit codes that will work with ANY universal remote control is made by GE, Sony, RCA or Philips, the codes will work if programmed correctly. If trying to program a remote control is not working or is
impossible in your situation, consider buying a learning remote control to take the guess work out of program RCA remote, program SONY 
device delays and timing, plus much more. An amazing intuitive color touch screen. You can swipe and tap to access and switch between entertainment activities with shortcuts for your most frequently used commands. This universal remote is very pricey but you get what you pay for. It is pictured above and can be purchased online here. It is great
0790, 1919, 0873, 0896, 2050, 23930896, 06703359, 3508, 35180904, 0416There are three simple ways to set up or configure a universal remote to work with your Sanyo DVD Player. Now we are going to guide you step by step on each one of them. The first method is using a keycode. With the correct code, you can program the universal remote to
 work with your Sanyo DVD Player. The keycode identifies the brand and model of your device. The first step is to turn the Sanyo DVD Player you want to configure ON. Then we press the TV button on your Universal Remote until we see a light indicator flashing. (When the
universal remote does this, it means that it has entered the Learning mode) Now you have to enter the code, which you can find on this website or on the instructions of the device you want to configure. Once you have entered the code, which you can find on this website or on the instructions of the device you want to configure. Once you have entered the code, which you can find on this website or on the instructions of the device you want to configure.
off, then you can release the power button. If you have followed the steps, now your Sanyo DVD Player will work with the universal remote. If your Sanyo DVD Player is not working, repeat the steps using another code. Suppose you weren't able to find a working code for your Sanyo DVD Player. In that case, there is another method that you can try to
set up your universal remote correctly. That method uses the universal remote search function to get the correct code. First, you need to turn the Sanyo DVD Player you want to control ON. (Note: You must keep the remote control aimed at the component throughout the process.) On the universal remote, press and hold the CODE SEARCH button.
When the indicator light illuminates, release the CODE SEARCH button. After that, press and release the device button corresponding to the type of device you want the universal remote control at the Sanyo DVD Player and press and release the POWER
ON-OFF button. Immediately right after the Sanyo DVD Player turns off, you have to press and release the ENTER button within three seconds, the remote control will send the next code in the list, and you will be required to start over from Step 2. If you have done the procedure correctly, you should already have
point your universal remote towards the remote control of the Sanyo DVD Player you want to replace. Next, you need to press the SETUP button or MAGIC button, depending on the universal remote instruction booklet. Next, you need to
press a function to program on the universal remote, like TV VOLUME DOWN. Then you need to press and hold the corresponding button on the original remote of the Sanyo DVD Player you are programming. After that, we should see a light blinking. That means that this function has been saved correctly, and we can use TV VOLUME DOWN on our
have to use it as usually the other methods should work.We have presented an extensive list of codes for you. If you have another device, you
can use the search on the top bar to find it. Alternatively, you also can go to our homepage and navigate the categories or brands to find them. We are glad to have helped you. The Sanyo DVD universal remote is among the best choices you can grab in the market today. With a reliable brand that has been a chosen preference for many homepage and navigate the categories or brands to find them.
make it control multiple entertainment devices. All the codes are found in the list and you need to pick the correct one for the type and model of your device.
